

2006 Alumni Contributors to Sigma Pi Sigma

*Thank you for your generous contributions.
Your support is greatly appreciated by all who value
the mission of Sigma Pi Sigma.*

2006 Annual Giving Color Key

Donors' names appearing in color have given \$450 or more to the Sigma Pi Sigma Trust Fund. The three highest levels of giving are:

EXEMPLAR; LEADER; and PATRON

Sigma Pi Sigma donors support SPS internships for physics students as well as other awards, totalling over \$100,000 in 2006-07. SPS Intern Ann Deml of the University of Wisconsin-River Falls (far right corner), enjoys time on the mall in Washington, DC, with a crowd of people celebrating the July 4th festivities. Ann expressed her appreciation for receiving the internship experience in this way:

“After such an amazing summer (and a lack of sleep in the previous nights), it was very difficult to leave on Thursday morning. It was a little easier since everyone was awake when I departed except Alex who had left much earlier in the morning. I definitely had a great group of friends to say goodbye to and a few tears to shed on the lonely Metro ride to the airport. Thank you again to all of the organizations and individual people who created this experience for me. I absolutely loved every part of it and learned a great deal about myself. Thank you all for taking the time to share your lives with me and making the summer one I will never forget.”
