Penn State University physics professor Paul Sommers kneels to look at a piece of art in the Universal Art Competition. The competition was sponsored by Penn State's Sigma Pi Sigma and Society of Physics Students chapters to expose students to experiences outside of their usual interests, and was inspired by the art contest at the 2008 Sigma Pi Sigma Congress. Penn State used a Sigma Pi Sigma Chapter Project Award to help fund the event. For more information on the Chapter Project Awards, visit www.sigmapisigma.org.
