For many Sigma Pi Sigma members, the days of late-night homework sessions and 8:00am classes are gone, perhaps replaced with long work hours or leisurely golf games enjoyed during retirement. This fall we invite you to reconnect with your student self and reconnect with Sigma Pi Sigma by getting involved in the life of a Sigma Pi Sigma chapter near you.

It doesn’t need to be a big commitment—you might call up a local chapter and offer to give a talk or colloquium about your type of work, or just let the chapter know that you are available to visit with students interested in pursuing a career like yours. You might offer to give a tour of your laboratory or provide advice to students applying for jobs or graduate programs. You might ask if the chapter has any outreach events in need of volunteers, or drop off some pizza the week of finals.

The Sigma Pi Sigma national office is happy to help you connect with a chapter near you, or with the chapter at which you were inducted. Please address requests to:

Sigma Pi Sigma National Office
One Physics Ellipse
College Park, MD 20740

Sigma Pi Sigma is a community of physics students and alumni that spans geographic regions and generations. Let’s stay connected!

Sigma Pi Sigma exists to **honor** outstanding scholarship in physics; to **encourage** interest in physics among students at all levels; to promote an attitude of **service** of its members toward their fellow students, colleagues, and the public; and to provide a **fellowship** of persons who have excelled in physics. Sigma Pi Sigma’s mission is not completed in the induction ceremony with the recognition of academic accomplishment. In the four dimensions of honor, encouragement, service, and fellowship, the mission of Sigma Pi Sigma takes a longer view.
